Hours	9 am – 5 pm After business hours for some counseling services available

Our goal is to provide better outcomes for crime victims. The US Department of Justice reports that 68% of victims of serious crime (e.g., rape, sexual assault, and robbery) experience grave social emotional problems, including moderate to severe distress, significant problems with work or school, and substantial problems with family and/or friends that present in the form of arguments and an inability to trust, or not feeling as close after the victimization.

The trauma our clients have experienced affects many aspects of their lives, often disrupting their education, emotional development, sense of security and increasing their risk of both mental health problems as well as detachment from the community. Many struggle finding and maintaining employment in a safe, healthy environment. With counseling, transportation, and advocates services, we are supporting more complete physical and emotional recovery and complete reintegration into our community.

TRC professionals will provide clients and their affected loved ones with stabilization support, trauma counseling, and assistance with any other immediate needs to secure their safety, such as transitional housing, transportation, and legal services. An advocate will also help victims apply for victim compensation and will if needed, arrange for victims to receive more specialized assistance, such as substance abuse treatment, sexual assault or domestic violence services, legal advocacy, or other community supports.

The CitiLookout Trauma Recovery Center was established to support you after a traumatic event resulting from a criminal act against your person. We provide crisis stabilization services. Services are free to victims and their families through the Victims of Crime Act and the States of Ohio Attorney General's Office. All aspects of the services are voluntary and without obligation.
